User Guide

blink
Simple Setup

1. **Download the app.**
   Visit the App Store, Google Play Store

2. **Launch the App.**
   Open the app on your iOS or Android device

3. **Follow in-app instructions.**
   The Blink app will walk you through creating an account and setting up your new Blink system.

   Detailed setup instructions can be found on page 5.
System Requirements

Blink connects to the Internet via a wireless connection.

Wi-Fi Network Requirements
In order for Blink to connect to your home Wi-Fi network, it must meet the following requirements.

☐ Your Wi-Fi network broadcasts at 2.4GHz (802.11 b/g/n)
☐ Your network does not block port 443.
☐ Your network upload speed is at least 2 Mbps.

iOS Requirements
To set up Blink using an iOS device, it must be running iOS 8.1 or later. The following devices support that:

☐ iPhone (4S or newer)
☐ iPad (2nd gen or newer)
☐ iPad Mini (1st gen or newer)
☐ iPod Touch (5th gen or newer)

Android Requirements
To set up Blink on an Android device, it must be running Android 4.4 (KitKat) or later.
Package Contents

**Sync Module**
The Sync Module is the central hub of your Blink system. This connects to your WiFi network and your Blink cameras.

**Package Includes:**
- Micro USB Cable & USB Wall Adapter

**Indoor Camera**
Our Indoor camera operates on 2 AA Lithium batteries and with standard use can last up to two years before needing to be replaced.

(Alkaline or Rechargeable are not recommended and standard use is defined as 40,000 seconds of Live View and Motion Clips over a 2 year period).

**Package Includes:**
- Indoor Camera
- 2 x AA Lithium Batteries
- Mounting Bracket & Screw
Setup

This is an overview of the setup process. Once you’ve downloaded the Blink app, create your account and follow these instructions.

1. Tap the Blink logo to begin.

2. Tap the Add a system button.

3. Set a name for the system like “Home” or “Office”.

4. Tap add a Sync Module.

5. Read guide then tap “Ready” when you have the necessary information.

6. Enter your Sync Module’s serial number located on the bottom of the unit.

Before you begin you will need:

- Your Sync Module serial number located on the bottom of the unit.
- The name and password of the Wi-Fi that Blink will use. Verify that your phone is connected to that Wi-Fi before continuing.
- Good Wi-Fi signal strength. Place your Sync Module close to your router to ensure a stable connection.
Setup Cont’d.

7. Plug your Sync Module into power and wait 30 seconds until you see a solid green and flashing blue light.

8. Leave the Blink app and go to Settings>WiFi. Connect to the Blink-#### network. It’s normal to see “Security Recommendation” or “Connected, no Internet”.

9. After a successful connection, navigate back to the Blink App.

10. Enter the password for your home WiFi network to connect.

11. After about 30 seconds, you’ll see the message “Sync Module added!” Tap “Done”.

9. Locate your Home WiFi network then tap it to continue.
Adding your Cameras

1. Tap to Add a Blink camera.
2. Select which camera to add.
3. Read guide then tap Ready.
4. Enter camera’s serial number and hit the continue button.
5. Name and position your camera then tap the snapshot.
6. Once generated, gauge the signal strengths and tap “Done”. Repeat the above steps for any additional cameras.

Before you begin you will need:
- Your camera serial number located on the back of the unit inside the battery cover.
- If the batteries have been in the camera for some time it may be in low power mode. Please remove the batteries for 10 seconds before continuing.
